Monday March 7th
Tuesday March 8th

Original Chicago Prints

Ready to hang, starting at \$100

Resin coated prints
3D prints
Framed & unframed prints

Johnson paints with photographs, creating an idealized world that encourages exploration. His prints are rifts in reality - recognizable spaces pushed to extreme perspectives. He concentrates and selectively edits time, analyzing, then rebuilding environments. He creates these scenes much like a sculptor, adding and subtracting from photographs, instead of stone. The resulting prints draw the viewer in, inviting them to become lost in the world he creates.
